

COURSE OVERVIEW

In this two-day intensive course participants develop the competence to master a model for implementing risk management processes throughout their organization using the ISO 31000:2009 standard as a reference framework. Based on practical exercises, participants acquire the necessary knowledge and skills to perform an optimal risk assessment and manage risks in time by being familiar with their life cycle. During this training, we will present the ISO 31000 general risk management standard, the process model it recommends, and how companies may use the standard. This training is also fully compatible with IEC/ISO 31010 which supports ISO 31000 by providing guidance for risk assessment.

COURSE OBJECTIVES

At the end of this course, you will be able to :

- ⇒ To understand the concepts, approaches, methods, tools and techniques allowing an effective risk management according to ISO 31000 and IEC/ISO 31010
- ⇒ To understand the relationship between the risk management and the compliance with the requirements of different stakeholders of an organization
- ⇒ To acquire the competence to implement, maintain and manage an ongoing risk management program according to ISO 31000
- ⇒ To acquire the competence to effectively advise organizations on the best practices in risk management

COURSE AUDIENCE

This course is ideal for Risk Managers, Business Process owners, Business Finance Managers, Business Risk Managers, Regulatory Compliance Managers, Project Management and all personnel who are responsible for information security or conformity within an organisation.

COURSE OUTLINE

- ❖ **Part 1: Introduction to Risk Management framework according to ISO 31000**
 - Concepts and definitions related to risk management
 - Risk management standards, frameworks and methodologies
 - Implementation of a risk management framework
 - Understanding an organization and its context
- ❖ **Part 2: Risk identification and assessment, risk evaluation, treatment, acceptance, communication and surveillance according to ISO 31000**
 - Risk identification
 - Risk analysis and risk evaluation
 - Risk treatment
 - Risk acceptance and residual risk management
 - Risk communication and consultation
 - Risk monitoring and review
- ❖ **Part 3: Risk assessment methodologies according to IEC/ISO 31010**
 - Presentation of risk assessment methodologies
- ❖ **Certification Exam (2 hours)**

The “PECB Certified ISO 31000 Risk Manager” exam fully meets the requirements of the PECB Examination and Certification Program (ECP). This is a 2-hour long exam and will cover the competence domains covered in the course outline.

The following competence domains are covered:

- Fundamental principles and concepts in risk management
- Risk management program
- Risk assessment
- Risk treatment
- Risk communication, monitoring and improvement

CERTIFICATE

After successfully completing the exam, a certificate will be issued to participants who successfully passed the exam. Successful participants can go on to apply for the credentials of PECB Certified ISO 22301 Auditor or PECB Certified ISO 22301 Lead Auditor depending on their level of experience.

To qualify as a PECB ISO 22301 Auditor, applicants are required to have 2 years of professional experience (with at least 1 year of Business Continuity work experience), audit activities totaling 200 hours and to sign the PECB code of ethics.

To qualify as a PECB ISO 22301 Lead Auditor, applicants are required to have 5 years of professional experience (with at least 1 year of Business Continuity work experience), audit activities totaling 300 hours and to sign the PECB code of ethics.

AMERICAN NATIONAL STANDARDS INSTITUTE (ANSI)

The standard used by ANSI to accredit certification bodies is an American National Standard as well as an ISO Standard-ANSI/ISO/IEC 17024. Accreditation to an international standard is extremely important for certification bodies that have global operations or aspirations. Currently, ANSI chairs the ISO/IEC 17024 Workgroup and is actively working with other member countries in implementing a Multilateral Agreement on accredited certification programs.

PROFESSIONAL EVALUATION AND CERTIFICATION BOARD (PECB)

PECB is a certification body for persons, management systems, and products on a wide range of international standards. As a global provider of training, examination, audit, and certification services, PECB offers its expertise on multiple fields, including but not limited to Information Security, IT, Business Continuity, Service Management, Quality Management Systems, Risk & Management, Health, Safety, and Environment.
